

Perform the following queries

1.

- Find Name of person in committees who is not a member.
- Find the Name of member who is not in committees list
- Find the name of person in committees having same age (Add column age in committees and set value 20,20,30 respectively).

```
SQL> desc committees;
      Name                               Null?      Type
-----
COMMITTEE_ID                            UARCHAR2(6)
NAME                                     UARCHAR2(20)

SQL> desc member;
      Name                               Null?      Type
-----
MEMBER_ID                               UARCHAR2(6)
NAME                                     UARCHAR2(20)

SQL> select * from committees;
COMMIT NAME
-----
101      Ramesh
102      Suresh
103      Hritik

SQL> select * from member;
MEMBER NAME
-----
m101     Ramesh
m102     Suresh
m103     Rakesh
```
